Teachers' salaries should be based on their students' academic performance. GRE 写作题干

I agree with the speaker that it is sometimes necessary and even desirable to relate students' academic performance to their teachers' salaries. A contrary view may be condemned as irresponsibility **on the part of** schools' administrators for students. Nevertheless, teachers' performance is not always the main determinant of their students' academic success and a rigid, indiscriminate wage policy may discourage teachers and end up lowering their students' grades.

Write a response in which you discuss the extent to which you agree or disagree with the claim. In developing and supporting your position, be sure to address the most compelling reasons and/or examples that could be used to challenge your position. 写作要求
